Parents of the Cadets discussed senior problems including college, vocation, military training — even the subjects of cars and dates — during the hospitality hour, Academy officials said.

Prayer Can Bring Lasting Joy, Church Group Advised

Lasting joy can be established in daily living through the power of prayer, Naomi Price of London, England, told a Torrance audience Monday.

"We do not need anything to make us express joy," she declared. "God is the only cause and he manifests joy in our experience. Let this joy find expression in your thought. It will bring you healing."

Mrs. Price, a member of The Christian Science Board of Lectureship, said that "there is no poverty too great, no sickness too severe, no sorrow too deep, to be healed through the power of prayer."

She spoke in the church edifice, 218th and Manuel Ave. under the auspices of First Church of Christ, Scientist on the subject "Christian Science: Religion of Comfort and Joy." She was introduced by Henry J. Moreau, First Reader.

A former social service worker, the lecturer noted that the comfort and aid Christ Jesus extended to the people of his time were tender and practical. "He healed the sick," she declared, "saved the sinner and raised the dead, and he preached tidings of great joy, opening the eyes of his disciples to the loving care which God bestows upon all His children."

The same practical help is available to all through pray-

er, Mrs. Price maintained. True prayer, she said, is "the conscious turning away from material belief and the becoming aware of spiritual reality."

She emphasized the importance of wanting to pray. "In order to enter into prayer, she declared, "we must be willing to leave the clamour, and sometimes glamour, of human belief. We must desire spiritual truth. We must 'hunger and thirst after righteousness' and be willing and humble enough to 'shut the door' to the suggestions of the material senses in order to acknowledge the presence of the Christ, Truth."

Edward D. Strong, apprentice petty officer second class, USN, son of Mrs. Ernest A. Strong of 23845 Park St., and Richard L. Gomez, apprentice petty officer third class, USN, son of Mr. and Mrs. Leonard Gomez of 3224 Winlock Rd., were graduated, March 17, from nine weeks of Recruit Training at the Naval Training Center, San Diego.

Apprentice petty officers are chosen from the ranks of the seaman recruits to assist Company Commanders. The selection is based on individual aptitude and leadership qualities.

Lazy Girl's Dream Job Goes Up For Grabs; All She Does Is Loll

"The softest job in the world" is now open to applicants. For those who have always wondered what the "softest job in the world" is, it's being Hollywood Park Goose Girl.

The track is now seeking a young lovely for the 1961 thoroughbred racing season that opens Wednesday, May 10, and runs through July 24.

HER "WORK" will consist of the following:

1. Look beautiful.
2. Never walk faster than a slow stroll.
3. Meander among the infield flowers and shrubs.
4. Drift dreamily in a boat on one of the six infield lakes while 450 black and white swans glide in state-ly escort.
5. "Work" only afternoons.
6. Take eight 10-minute "beauty breaks" each afternoon in her private apartment back of the tote board when the thoroughbreds start their post parade for the next race.
7. Appear in newspaper and magazine photographs and in newsreel features throughout the country.
8. Collect a generous salary for all this "work".

THE GAL who will win the "softest job in the world" will be chosen in a beauty and per-

18 and 30—and eight finalists will be chosen by a committee on April 18.

Finals will be staged in Goose Girl costumes in Hollywood Park's infield on April 25 with the metropolitan press photographers of Los Angeles as judges.

Come to think of it, the judges have a pretty soft job, too.
